Research, expert activities

Major subjects and topics taught

Physiology – Sports Physiology – Hungarian University of Physical Education and Sports Sciences, Semmelweis University Fac of General Medicine
Anatomy Hungarian University of Physical Education and Sports Sciences,

Current research topics

Adaptation of the cardiovascular system to acute and chronic physical exercise

Former research topics

Adjuvant therapies is the treatment of sports injuries and harms (ointments, patch, laser and Bioptron lamp treatment)

- Adaptation to long journeys, effects time-zone differences , jet leg

Key research

Adaptation of the cardiovascular system to regular physical exercise in

- different branches of sports
- ages
- effect of the involuntary cessation of training
- gender differences

Membership of a scientific or professional organisation or body

- Hungarian Society of Sports Sciences
- Hungarian Society of Physiology
- Hungarian Society of Cardiology
- Hungarian Society of Hypertension
- Professional College of Sports Health

Editorial board memberships and positions

- Kalokagathia
- Magyar Sportorvosi Szemle (Hung. Rev. Sports Medicine)
- Acta Physiologica Hungarica (Physiology International)
- Testnevelés és Sporttudomány Physical Education and Sports Science)

- 2

Expert advisory activities

- 1
- 2
