CALL FOR ABSTRACTS

The Hungarian University of Sports Science (HUSS) has a Students' Scientific Association (TDK), established in the 1950s. Each year the University organizes a conference, where students give oral presentations regarding their research work. The best student presenters enjoy the opportunity to attend the National Student Scientific Conference, where they are always very successful.

Before Covid-19 almost every two years the University organize and hold the International Student Science Conference (ISSC), where internationally well-known scientists, both junior and senior, are invited.

The students with their mentors publish their results in national and international journals. In addition, the doctoral and TDK students are supported in their efforts to visit the research institutions and laboratories of European, North American and Asian higher educational institutions.

We believe in the power and importance of international mobility and foster institutional collaborations that facilitate such exchange opportunities for our students. Our university community takes pride in widespread scientific connections, which make it possible for international students to conduct research in our laboratories.

The University is actively involved in international conferences and academic publications, and many serve as editors or editorial board members of national and international journals.

The HUSS has achieved a great deal in science, while continuously exploring ways of expanding our research portfolio and ensuring that high-quality infrastructural facilities aid our research at all levels.

Key Dates (23:59 CET)

- Abstract submission: **18 February 2024**
- Abstract results notification by: **28 February 2024**
- Early bird registration fees (in EUR): before **31 March 2024**
- Late registration fees (in EUR) after **1 April but before 14 April 2024**

General Information

- Organizer: Hungarian University of Sports Science (HUSS), Budapest
- Conference venue: HUSS, Alkotás u. 42-48., 1123 Budapest, Hungary
- Patrons: Prof Dr Tamás Sterbenz, rector and Prof Dr Zsolt Radak, vice-rector of Science and Innovation
- Chair: Dr habil. Zsuzsanna Kneffel, chair of Student Research Society
- Co-Chair: Dr Szilvia Perényi, associate professor
- Secretary General: Anita Sturm
- Contact: issc2024@tf.hu

Session Topics

- Adapted Physical Education and Sport
- Biomechanics and Kinesiology
- Human Movement Sciences
- Human Performance
- Olympism and Sport History
- Policy at National and International Levels
- Sport and Business
- Sport and Society
- Sports law
- Sport Coaching and Talent Development
- Sport Management
- Sport Psychology
- Sport Physiology
- Teaching and Learning in Physical Education
- Tourism and Recreation
- Training Methods
- Other issues related to sport sciences

Submission guidelines

- Authors are required to submit their abstract [online](#).
- However, submission for plenary sessions for accompanying professors should be submitted via email: issc2024@tf.hu
- Each participant can present one paper as the lead author, and his or her name can appear on up to two additional papers as second or additional author, but not as the presenter. We encourage early career researchers to submit their own papers.

- Authors should submit their abstracts in English. Please note that no translation services can be offered during the conference. Abstracts should not exceed the respective word count (250 words, without title, authors and institutions), and may not contain tables or graphs.
- Abstracts will be reviewed by the members of the Congress Scientific Committee.
- Presenters are encouraged to prepare a Power Point presentation in English in order to present their research content, which also serves a better understanding and facilitates discussion.
- Abstract submission is free of charge. Presenting authors need to register for and should make themselves available for the duration of the conference.
- Registration fees must be paid by 31 March, 2024 at the latest for an author to present at the issc2024 Budapest conference and to ensure the publication of their name and abstract in the Book of Abstracts. All authors agree that their abstracts will be published in the Book of Abstracts and on the website of the conference.

All fees can be paid by bank transfer, proforma invoices will be sent by email within two (2) working days following the registration, and be paid in due the time of payment (early/late registration). If early bird payment would be not paid in due time by March 31, 2024.

Session and presentation formats

Session formats include traditional oral presentations for students, and plenary sessions for professors. For each format, please see specifications below.

Traditional Oral Presentations (for Students)

We aim to operate on a 10/5 schedule (10 min presentation, 5 min discussion) to stimulate a meaningful discussion of papers. Authors are asked to indicate the focus of their submitted paper during the abstract submission process (beside the thematic session that fits to their research). The requirements for the respective abstracts are as follows:

- **Research papers:** Objectives, Methods, Results/Findings, Discussion, Conclusion
- Submission via provided link on the homepage

Note: In each session, we will be awarding prizes for the best three presentations and an additional one will be acknowledged.

Plenary Session (for accompanying professors)

In these sessions submitting authors should focus on high quality research including latest findings in sport sciences of any session topics listed above. The sessions can include 3–4 presenters for 20 minutes introductions of research, followed by discussion

among those presenting and conference attendees who join the plenary session. Submitting authors should introduce the topic for the plenary session and also address the questions why this research is important and timely?

- Abstracts (max. 750 words) are to be submitted by one corresponding author via email: issc2024@tf.hu
- Abstracts should include information on all presenters and their respective research plans (that are presented within the session).

The deadline to submit your abstract for plenary session is **April 2, 2024**.
