

INTERNATIONAL COACHING COURSE (ICC)

HUNGARIAN UNIVERSITY
OF SPORTS SCIENCE

BUDAPEST

1925

HISTORY

The first International Coaching Course in Budapest was held in 1971. Since the establishment of the Course, over 2.000 participants from more than 90 countries and all continents of the world received their diploma at our University. As a result of the long time activity in the international coach education the Course management has developed cooperation with governmental and non-governmental institutions all over the world, which corresponded with the objectives of the course.

OBJECTIVES

The ICC is designed to train and educate coaches from around the world. The programme attempts to promote and develop excellence in coaching. The Course provides coaches with a systematic way to improve their knowledge and skills in the theoretical, technical and practical aspects of coaching.

ORGANISATION STRUCTURE

The ICC is initiated, organised and supervised by the Hungarian University of Sports Science, International Relations Center. It is an intensive, concentrated and intermediate level course organised in half-year intervals starting every March and September. Usually 7-10 sports are offered, depending on the demand and actual applications. The sports are carefully selected, based on traditions, long-term success of the Hungarian National Teams and the availability of our well-known lecturers and coaches. The duration of the course is three months.

COURSE CONTENT

Course content in detail has been carefully selected to meet the needs of coaches working with generally young, developing athletes as well as with advanced athletes of elite sport. To train a competent coach, completion of both theory and practical/technical components of the programme is essential. Progress in the training programme requires active coaching to implement the knowledge gained in the coaching course; therefore all participants are involved in practical coaching work in the leading Hungarian sport clubs. They are supervised by the senior lecturer and/or his/her assistants of the particular sport. The programme includes 120 theoretical and 180 practical teaching hours. In a chosen field of sports students receive intensive education in Anatomy, Physiology, Sport Psychology, Sport Pedagogy, Sport Sociology, Sport Management, Sport Administration, Sport and Research and Sport Practice. The Fall Course begins in mid-September, the Spring Course in mid-March.

LANGUAGE OF INSTRUCTION

The programme is taught exclusively through English. Participants are expected to speak English, not only during classes but also in their conversations with the teaching staff, the organisers and the other students.

EXAMINATIONS

The exams may consist of written, oral and/or practical requirements. Examinations in the student's respective sport consist of sports theory and sports practice. The examination is taken before an Examination Committee. Participants who completed their studies conclude the course with a final examination.

TEACHING STAFF

University professors, the best Hungarian specialists, qualified coaches, sports scientists, and experts from the Hungarian and international sport, are invited to give lectures. The organisers use every opportunity to invite well-known lecturers. International guest professors visiting the University are always invited to contribute to the ICC programme according to their area of expertise.
