Welcome

WELCOME TO OPATIJA, CROATIA TO THE 7th CONFERENCE ON KINESIOLOGY

Dear Friends and Colleagues,

On behalf of the host, the Faculty of Kinesiology, University of Zagreb, Croatia, which in the year 2014 celebrates its 55th Anniversary, and the Conference Organizing Committee, we announce with great pleasure the upcoming 7th International Scientific Conference on Kinesiology to be held in Opatija, Croatia, on 22-25 May, 2014, under the patronage of the Croatian Academy of Sciences and Arts.

Workshops, exhibitions and a joint meeting of the International Editorial and Advisory Board of the journal *Kinesiology* are planned in addition to the conference programme. The social program and less formal events will not be forgotten either.

*Looking forward to welcoming you at
the Conference!*

Dean
Prof Damir Knjaz, PhD

About the Conference

AIM

The aim of the conference is to provide a forum for the latest research, theoretical and applicative insights, findings and experiences from the vast field of kinesiology, the science of human movement and exercise. A presentation of the latest information is expected from the basic principles to practical applications, especially reports on new scientific breakthroughs such as the human genome investigations, application of new technologies, revised educational concepts and, above all, the urgent need to find more effective and appealing ways of health and well-being protection and promotion by means of sport and exercise against the ever increasing deteriorating influence of sedentariness and the aggressive hectic modern way of living.

PARTICIPANTS

Kinesiologists (or sport scientists) – academicians, researchers, lecturers and practitioners, PE teachers, coaches, physicians (esp. specialists of sports medicine), physiotherapists and others, as well as post-graduate students and experts from cognate and adjacent scientific fields from all over the world are welcome. Policy makers, media representatives and service providers in sport and exercise are welcome as well. The presentation of the latest information is expected in podium and poster presentations. Each author is free to take approach he/she wants within the scope of the announced Conference topics.

Contributors who will be younger of 33 years of age in 2014 have the opportunity to participate in the Miloš Mraković Young Researchers Award contest.

KEY NOTE SPEAKERS (open list)

- Martin Buchheit, ASPIRE - Academy for Sports Excellence, Doha, Qatar
- Maria Dinold, International Federation of Adapted Physical Activity (IFAPA), President; Centre for Sport Science and University Sports, University of Vienna, Austria
- Zeevi Dvir, Department of Physical Therapy, Tel Aviv University, Israel
- Annette Hofmann, International Society for the History of Physical Education and Sport (ISHPES), President; University of Education, Ludwigsburg, Germany
- Vladimir Issurin, Elite Sport Department, Wingate Institute, Israel
- Gregor Jurak, Faculty of Sport, University of Ljubljana, Slovenia
- Antonio Méndez Giménez, Faculty of Teacher Training and Education, University of Oviedo, Spain
- Marco Narici, European College of Sport Science (ECSS), President; School of Graduate Entry Medicine and Health, University of Nottingham, UK
- Boštjan Šimunič, Institute for Kinesiology Research, Science and Research Centre, University of Primorska, Koper, Slovenia
- Barbara Wessner, Institute for Sport Science, University of Vienna, Austria
- Weimo Zhu, Kinesiology and Community Health College of Applied Health Sciences, USA

Committees

ORGANIZING COMMITTEE CHAIRS

Chair: Dragan Milanović, Faculty of Kinesiology, University of Zagreb, Croatia

Co-Chair: Dario Škegro, Faculty of Kinesiology, University of Zagreb, Croatia

Secretary: Natalija Babić, Faculty of Kinesiology, University of Zagreb, Croatia

SCIENTIFIC COMMITTEE CHAIRS

Chair: Franjo Prot, Faculty of Kinesiology, University of Zagreb, Croatia

Co-Chair: Goran Sporiš, Faculty of Kinesiology, University of Zagreb, Croatia

Secretary: Vlatko Vučetić, Faculty of Kinesiology, University of Zagreb, Croatia

Tentative Sections

The 7th Conference will work in plenary sessions and in the following sections:

- ▶ **Adaptation of Human Organism to Disuse and Ageing**
- ▶ **Adapted Physical Activity and Kinesitherapy**
- ▶ **Biology & Medicine of Sport and Exercise**
- ▶ **Biomechanics and Motor Control**
- ▶ **Kinesiological Recreation**
- ▶ **Kinesiology in Social Sciences and Humanities**
- ▶ **Kinesiology in Physical Conditioning**
- ▶ **Kinesiology of Top-level Sport**
- ▶ **Management of Sport**
- ▶ **Physical Education**
- ▶ **Research Methodology**

Satellite symposiums:

UNIVERSITY SPORT AND PHYSICAL ACTIVITY

The aim of the satellite symposium is to present the latest results of interdisciplinary research in the area of university collegiate sport and physical activity in all areas of application (education, recreation and competitive sports). Besides, scientific research reports are welcome related to quality of life, health (physical and mental), social environment and leisure time of university students, as well as to all aspects of student life style that is associated with physical activity, and health promotion.

Topics:

COLLEGIATE SPORT AND HEALTH: exercise, fitness and physical wellbeing, sport and recreation in psycho-social wellbeing, sedentary behavior in university student population, student lifestyle, stress coping abilities, drugs in sport, sports nutrition and exercise metabolism, psychological or sociological aspects of involvement in sports, sports and disabilities, health and fitness in the future.

EDUCATION AND SPORT: physical and sport education, dual career, community-based youth sports, sports programs in college, and universities, coaching and instructional motivational strategies, life-long learning, e-learning

MANAGING SPORT AT UNIVERSITIES: development of university sport, potential and resources, models and systems of university sports.

HEALTH KINESIOLOGY

Health Kinesiology programs can be found in numerous curricula of graduate studies at European universities. In our south-eastern European region this branch of kinesiology is quite underdeveloped and it is high time to devote our attention to this interdisciplinary area in which kinesiologists have to play a very important role. To perform properly in the area, they have to be acquainted with findings and skill from adjacent scientific disciplines and taught much more than now. It is our task in the very close future to get medical schools, physicians and health system defer to get complementary knowledge to act together on HEPA promotion and implementation. National health strongly depends on it.

This symposium has the goal to give an insight into the place and the role of health kinesiology in national policies and in the implementation of health enhanced physical activity.

Key note speaker:

Herbert Hartman, Germany

All members of the Croatian Medical Chamber will be given points for the participation in the satellite symposium.

Fee: 100 Euro

Conference school of kinesiology for postgraduate and doctoral students

We invite all postgraduate and doctoral students to take part at the Conference School of Kinesiology which will be held during the Conference in Opati-

ja. Six topics from the field of contemporary kinesiology will be presented according to the separate schedule.

Young Researchers Award

MILOŠ MRAKOVIĆ YOUNG RESEARCHERS AWARD

Miloš Mraković Young Researchers Award (YRA) recognizes efforts and accomplishments of young investigators in the various fields of kinesiology / sport science and adjacent scientific fields.

The YRA candidates will present their works within the designated sections as scheduled in the Scientific Programme, either as a podium or a poster presentation.

The best papers and presentations will be chosen by the Miloš Mraković YRA Committee. They will receive monetary awards and honorary scrolls.

The award ceremony will be held during the Closing Plenary Session.

Eligibility Requirements

- The award may be assigned to a single author or to a team of authors for the merit of the paper submitted to be included in any of the announced sections of the Conference.
- Candidates are only eligible if they are under or 33 years of age in 2014. No member of the team of authors may be older than 33 years. Do not forget to indicate your age when registering!

- The paper must not have been presented previously at other conferences nor published in a peer-reviewed journal at the time of presentation.
- A team of authors will share the award among themselves.

Criteria

Papers of the candidates will be judged using the following criteria:

- Scientific originality of the paper.
- Quality of both the paper and the presentation, either a podium or a poster one.
- Quality of the theoretical and methodological approach.
- Relevance to practice or importance of scientific findings.
- Design and realization of the experiment.

Application

A candidate may enter the Miloš Mraković Young Researchers Award competition when registering for the 7th Conference on Kinesiology by simply answering YES to a question regarding the YRA competition and submitting the paper online.

Call for papers or abstracts

Papers and abstracts are cordially invited on kinesiology or sport science topics within the announced scope of the Conference.

Participants are invited to submit their papers or abstracts for either a podium or poster presentation. The Editing Guidelines are valid generally for any paper submitted (certain regulations are valid for the invited lectures as well), no matter which presentation form is preferred by the author.

Papers can be submitted either as abstracts or integral papers.

Any submitted paper or abstract will be internationally reviewed and evaluated in order to decide on its acceptance, conditional acceptance, or rejection. Nevertheless, the submitting authors are responsible for the statements and views expressed in their works, as well as for the editing style and quality of language (either British or American English). Only the accepted papers or abstracts will be included in the Scientific Programme and printed in the Proceedings or published on CD, provided that the submitting author has paid the fee.

Any participant may submit only two papers or abstracts. Participant can be the first author of only one paper.

Any delegate may present two contributions at the Conference, providing he/she is the author or co-author of both papers or abstracts.

When registering and submitting their papers or abstracts, the potential participants being young-

er than the upper age limit of 33 years (turned in 2014) may apply additionally for the Miloš Mraković Young Researcher Award.

Papers or abstracts, carefully edited by the Editing Guidelines stipulations, are expected by January 15, 2014 through the submission tools integrated in the Registration Form. The Conference Office will confirm receipt of the contribution in the form of a letter.

Please, consider the deadlines for paper or abstract submission (January 15, 2014) and for authors to be notified (February 15, 2014), as well as the principle that no contribution will be included in the Proceedings (paper and CD alike) in the case of Conference fee nonpayment (one fee - one author – one paper).

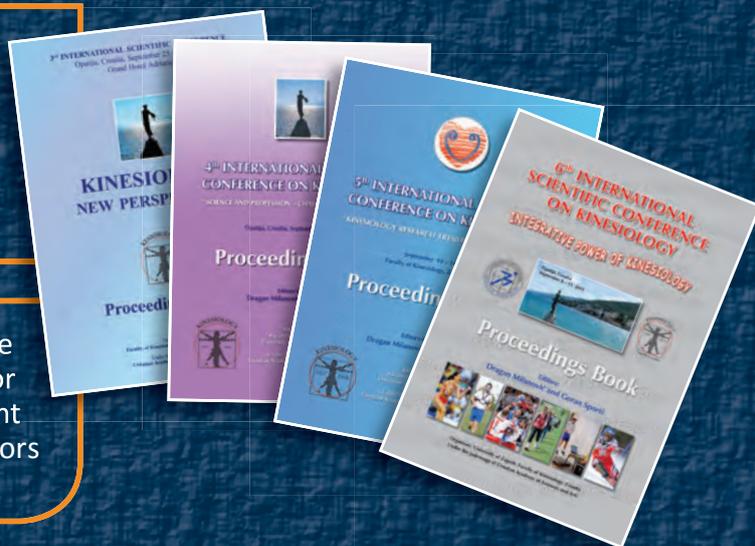

POSTERS, preferably measuring 100 x 70 cm, will be on display during the Conference. They should be structured in the same manner as the integral paper, but **MUST** be easily legible from a distance of at least 2 metres. All issues concerning layout of posters are the responsibility of the authors.

Official language: English

Authors are exclusively responsible for the appropriateness, quality and style of the English language (either British or American) used in their papers.

Papers published in Conference Proceedings will be indexed in the Conference Proceedings Citation Index data base as one of the WEB of Science products, regarding the fact that four previous Kinesiology Conference Proceedings were cited in ISI Proceedings.

Reviewers will select the best papers which will be recommended for inclusion into the procedure for publishing in the „Kinesiology“ journal supplement in 2014 and Scientific Committee will notify authors about that.

Registration and paper submission exclusively online: <http://kinesiology2014.kif.hr>

Editing guidelines

Participants are invited to submit integral papers or abstracts, carefully edited, on the topics related to the announced themes (denoted in the Registration form).

MANUSCRIPT. The papers, carefully edited and submitted via the Conference website (Registration Form), using Microsoft Word format, are expected by **January 15, 2014**. The authors are free to create the papers according to their preferences and knowledge, but the Publishing Manual of APA, 4th and/or 5th ed., editing style is recommended for all contributions, as well as the Harvard reference system, i.e. the one used in the journal „Kinesiology“. No foot-notes are allowed.

SIZE. The paper should not exceed the maximum of 6 pages (including title, authorship, affiliations, abstract, key words, body of the text, tables, figures or any other graphical illustrations, and references).

The „page“ here means: A4 size (21 x 29.7 cm; portrait orientation) white bond paper; all four external margins set at 3 cm. Acknowledgments (preferably not) should be positioned at the very end of the manuscript.

N. B. No foot-notes are allowed.

Abstract. The body of Abstract (TNR, 10 pts, current) should be justified on both sides of the text, consisting of a single paragraph only. Together with the title and all key words, the Abstract must not exceed 1,000 characters with spaces.

TYPEFACES: Times New Roman (TNR), character size 10 in the body of the text, spaced 1.5; Arial Narrow (AN) in tables, character size 9, single-spaced. Justified on both sides of the text.

HEADINGS. Print the TITLE of the paper in capital letters (TNR, 14 pts, bold, spaced 1.5), centred; a single blank line follows, then come the full names of the author(s) (TNR, 11pts, bold, current; full first and family names, middle name abbreviated to an initial), separated by commas; introduce the last complete name by „and“. Underline the presenter. No blankline-separation between author(s) and affiliation(s).

Relate each author to the respective institution(s) by an identification number in the superscript. Institutions should be introduced by their identification number, the name of the institution, City, Country. Institutions should be separated by semicolons. The identification number is redundant if all the

authors are affiliated with the same institution. A single blank line should separate the affiliation(s) from the Abstract.

Please, omit any university degrees and positions, titles, streets, etc. These data should be presented in the Registration Form.

ORGANISATION OF THE PAPER. Each paper should consist of a heading, abstract, key words (up to six which have not already been mentioned in the title of the contribution) and the body of the text. Use *italics* to *highlight* any key words within the text, if necessary. The body of the text should be divided into sections with Subtitles (TNR, 11pts, bold, current, justified on the left, preceded by one blank line), for the experimental studies: Introduction, Methods, Results, Discussion and conclusions, References (in the text, the references should include the family names of the authors and the year of publication; when three and more authors are referred to, introduce the first author and use the abbreviation „et al.“; at the end the contribution, the references should be listed alphabetically; up to five). Please, do not number the sections or subsections.

THE PROCEEDING IS PRINTED IN BLACK AND WHITE! NO COLOURED ILLUSTRATIONS ARE ACCEPTABLE.

TABLES, GRAPHS AND FIGURES. Black and White illustrations should be incorporated in the body of the text. Tables (Arial Narrow, 10 pts; referred in the text as Table and numbered consecutively with Arabic numerals in a single series).

Please, be sure not to send the tables in the format of a picture. Keep each illustration „unlocked“.

Each illustration must have its title, or caption and a description (placed above the tables and beneath the figures, respectively).

Graphs, pictures and photographs (referred to in the text as Figures and numbered consecutively with Arabic numerals in a single series), ALL BLACK AND WHITE (do not use heavy black, please), should be of good quality (digital photographs of at least 300 dpi; .jpeg or .tiff format). So, be sure that your block diagram or curves are in that format.

For any further details regarding registration, editing of your papers and paper submission, please refer to the Conference official web site <http://kinesiology2014.kif.hr>.

Guidelines for abstract submission

Organization

All abstract submissions are required to be structured under these headings:

- Purpose
- Methods
- Results
- Conclusions

Size

All abstracts must fit within the allotted size requirement to be considered for review. The abstract must be **350 words** or less and be no more than a single page.

Text should be in Times font only. The font size should be 11-point. Graphics and tables may be included if they fit within the size constraints. The „page” here means: A4 size (21 x 29.7 cm; portrait orientation) white bond paper; all four external margins set at 3 cm.

GENERAL INFORMATION

Welcome to Opatija - well known Pearl of Adriatic Sea!

Opatija is the largest city on the eastern coast of Istria, centrally located on the northern part of the Croatian Adriatic Sea along the so-called Kvarner Bay.

The unique city shines with quiet elegance and sumptuous beauty. Opatija's villas and buildings of exceptional architectural value, surrounded by the evergreen mountain Učka, healing sea and beautifully arranged parks, have perfectly combined the modern spirit and the benefits of a top

tourist offer. An almost 12 kilometers long promenade alongside the sea, the famous Opatija „lungomare“, stretch along the Opatija coastline from Volosko to Lovran and gives a particular charm to the city and its riviera.

Because of its unique climate and temperature, Opatija is attractive not only in the hot summer months when offering refreshment, but in the winter as well, with its mild and warm temperatures because of which it was a popular resort among Austrian aristocracy since 19th century!
